

The Next 4Winds STEM&BTT: November 30, 2013 at the University of Windsor
Turtle Island House

Archaeobotany: Looking at the Ancient Past

Rudy and Margaret Ann Fecteau are Archaeobotanist, retired teachers, and members of the Ontario Archaeological Society. On November 30, 2013 they will visit with the 4Winds STEM&BTT program to show their mini-laboratory and collection of specimens. There is a long history in Southern Ontario and also many specimens from those earlier periods. Rudy and Margaret will share their techniques and look at the past through the microscope.

The 4 Winds Science, Technology, Engineering, Mathematics & Beginning Time Teaching (4Winds STEM&BTT) program is a series of science camps for Aboriginal youth in grades 6, 7, and 8, from the Windsor area. The camps are located at the University of Windsor – Turtle Island House at the Aboriginal Education Centre, 496 Sunset Avenue, Windsor Ontario. There is no costs, however students are required to register for each camp (Please see contact information below). Students from Aboriginal backgrounds are encouraged to attend. Camps are on Saturdays from 11 a.m. to 3 p.m.
